1. PERSONAL DETAILS

- **Date of Birth:** 6/20/2004
- **ID Number:** 41575494
- **Gender:** Male
- **Marital Status:** Single
- **Nationality:** Kenyan
- **Languages:** English and Kiswahili, Kikuyu.

PROFESSIONAL PROFILE

IT Support & Systems Administrator with **4+ years of combined experience** in desktop support, network operations, and media systems management. Currently leading IT desk operations at Anglican Church of Kenya (ACK), handling workstation deployment, network maintenance, user support (Tier 1 & 2), and system configuration. Recently completed industrial attachment at Embu Level 5 Hospital, gaining hands-on experience in MIS support, hardware troubleshooting, printer maintenance, and secure handling of sensitive data in a clinical environment. Proven ability to manage multiple priorities, document issues manually, and follow data protection regulations. Seeking to transition into roles requiring system analysis, configuration management, network security, and compliance with classified/unclassified IT systems.

WORK EXPERIENCE

IT Support & Systems Administrator (IT Desk)

Anglican Church of Kenya (ACK), Othaya

January 2020 – Present

- Provide **Tier 1 and Tier 2 technical support** for 50+ users (staff, clergy, volunteers), resolving hardware, software, and network issues with documented escalation procedures.
- Manage **network operations**: configure static IPs, resolve IP conflicts, crimp RJ45 cables (T568B), test continuity, and assist with basic switch/router oversight.
- Perform **full workstation deployment lifecycle** – from assembly and OS installation (Windows, MS Office, SQL Server, antivirus, MIS clients) to user handover and documentation.
- Maintain **printers (USB/network)** : clear jams, replace toner/drums, clean printheads, install network printers, troubleshoot common errors.
- Oversee **CCTV installation**, cable management, and preventive hardware maintenance (RAM, HDD/SSD, PSU, thermal paste, fans).
- Implement **basic information security best practices** – enforce access controls, ensure antivirus updates, respect data confidentiality, and assist in informal system audits.
- Support **audio-visual systems** (ProPresenter, Easy Worship, live sound mixing) as secondary duty, ensuring seamless service flow – demonstrating adaptability across IT and media.

Industrial Attachment – ICT Department

Embu Level 5 Hospital, Embu

January 2025 – April 2025

- Provided **on-site technical support (Tier 1/2)** to nurses, doctors, and administrative staff, resolving 20+ tickets weekly using a manual logbook and priority matrix (clinical urgency first).
- Assisted in **MIS support** – understood error messages, synchronisation concepts, and connectivity issues; helped users resume work quickly.
- Performed **computer assembly/disassembly**, preventive cleaning, OS installation (Windows), software configuration, and workstation deployment.

- Configured **network printers** and resolved printing errors across multiple wards.
- Applied **professional ethics & compliance** – strictly followed the Data Protection Act (2019), never accessed patient data without authorisation, and maintained confidentiality of all sensitive information.
- Documented every request, solution, and follow-up action, enabling knowledge transfer and audit readiness.

EDUCATION & PROFESSIONAL QUALIFICATIONS

- **2022:** Kenya Certificate of Secondary Education (KCSE) – Njiiri School – Grade C Plain (43 points)
- **2018:** Kenya Certificate of Primary Education – Vidhu Ramji Primary School – 349 marks

PROFESSIONAL SKILLS & COMPETENCIES

Systems & Network Administration

- Network operations (IP configuration, conflict resolution, basic crimping, continuity testing)
- Workstation deployment (full cycle)
- Hardware troubleshooting & preventive maintenance
- Printer installation and maintenance (USB & network)
- CCTV installation & cable management
- MIS workflows & user support

Information Security & Compliance

- Data Protection Act (2019) adherence
- Confidentiality handling of classified/sensitive information
- Basic security best practices (antivirus, access control, system audits)
- Willing to obtain Top Secret clearance
